

## CUTTING MACHINES

# MODEL 50SP "THE BIRDIE" PORTABLE ELECTRIC ROTARY SHEAR

The **50SP Birdie** is a lightweight yet powerful rotary shear (scissor action) that lets you cut fabric with incredible ease and accuracy.

THE MAINTENANCE FREE BIRDIE comes with built-in sharpener and safety features.

The Birdie is excellent for narrow curves and sharp corners. For cutting single and low lays of material including cloth, knitted fabrics, plastics, synthetics, leather, lace, fiberglass, vinyls, etc.

Used for slitting and trimming knitted fabrics when base plate is removed.

### Features:

- Lightweight and Powerful.
- Grip-style Switch Bar - automatically stops when NOT pressed.
- Fast, accurate Scissor Action Cuts - ensured by carbide blade.
- No fusing or "Pull In" of materials.
- 7-Sided High-Speed Steel Blade - easy to change and longer lasting.
- Removable base plate - allows "off the table" operations such as slitting.
- Impact Resistant Casing.
- Shock Protection - double insulated against electrical shock.
- Shielded Ball Bearings - require no lubrication or servicing and ensures free and quiet operation.
- Built in sharpener.

### Machine Specifications:

Weight - 21 ounces  
 Blade Size - 1-7/8"  
 Cutting Depth - 7/16" (Max.)  
 Electrical - 115 V.  
 (220V on Special order basis)

# MODEL 501P Heavy Duty Cordless Electric Shear

Complete with heavy duty NiCad Battery Pack and temperature controlled Quick Charge Charger

This cordless heavy duty electric shear works like a pair of hand shears only faster, cleaner and easier. Cuts material of up to 1/2" (12 mm) in thickness, including knitted fabrics, leather, carpet, fiberglass, etc.

- A 2-15/16" (60 mm) 10-sided round knife and carbide tipped stationary counter knife, becomes a self sharpening combination.
- At the heart of this cutter is its powerful 9.6 volt brushless motor fed by a heavy-duty NiCad Battery Pack. It recharges in 1 hour and can cut approximately 325 yards (300 meters) of cloth or 350 feet (120 meters) of carpet on a single charge. For continuous operation, keep a second battery in the charger.
- The newly designed knife guard meets international safety regulations.
- It comes equipped with simple touch sharpener to ensure sharpness at all times.
- Stops automatically if it slips out of your hand.
- The shear with batter attached is only 2.5 lbs (1.136 kg.) 11-1/2" (29.5 cm) long.
